November 5 – WERC Offices

The Southwest P2 Roundtable met in Albuquerque, New Mexico to discuss common issues for the P2 Programs in EPA's Region 6. This meeting was attended by senior management at NMED, including the Deputy Secretary.

The group discussed:

- Applying as a region for a joint project under EPA's State Innovation Grants
- Minor revisions to the strategic plan
- Logistics and schedule for supplying outcome measurements to EPA (David B.) and the National Measurement workgroup (Thomas).

November 6 – Pueblo of Acoma

On November 6 the group conducted a pollution prevention site assessment to advise a business on methods for reducing pollution at its source. The group has been conducting periodic assessments to facilitate cross training between the states. Inquiries on this particular visit should be directed to Chris Campbell.

The group also met with the Stanley Paytiamo and Claudia Mitchell, of the Pueblo Environmental program. The group was given an overview of environmental issues faced by the Pueblos.
